Subject: Revised EPA-DEC list of questions
[2013-04-30 EPA DEC Geotechnical GPs Scoping Questions External \(Revised\).docx](#)

Thank you again for attending the geotech permits scoping meeting yesterday. We at EPA, and I am sure DEC as well, really appreciate the discussion and information shared at the meeting by industry members and our federal and state partners.

As promised, attached is the revised list of questions. We would appreciate your written input by Friday, May 10 in order to refine the scope of the permits and supporting documents. Also, as we discussed, please feel free to include additional questions/information you may want EPA and DEC to consider.

Nikki and Dan - Since I don't yet have a copy of the sign-in sheet and do not have email addresses for everyone, please forward this email to other meeting attendees in your group, and to those who were not able to participate.

Thanks again and we look forward to hearing from you soon.

Hanh
